Acorn Plotter

A graph plotting application for the Acorn Pocket Book

Acorn Plotter

Plotter is a graphic plotting application which extends the range of use of the Acorn Pocket Book and fulfils the role of a specialist graphical calculator.

It has been designed to meet all curriculum needs for use in Maths and Science Key Stages 3 and 4 onwards (age group 11-16), and will also cover most A-level requirements.

You can use it for plotting:

- Cartesian functions
- polar functions
- inequality graphs
- co-ordinate pairs
- families of functions.

(Pie charts and bar graphs are plotted using the resident Abacus application.)

You can:

- trace functions
- recalculate functions dynamically for a given range
- zoom in and out of any section of a graph or move around it
- save, load and merge graph files.

Plotter comes on an SSD memory card which can be slotted into either of the drive bays of the Pocket Book, and is accompanied by a manual. You can purchase a single unit (AHA44) or a Class Pack of 11 units at a reduced rate (AHA45). The Plotter Class Pack complements the Pocket Book Class Pack of 11 Pocket Books, A-Link and mains adaptor.

For further details contact your local Acorn dealer.
