

ECONET SUPPORT CENTRES

Parts for the Econet local area network system are available from a wide range of outlets throughout the British Isles. In addition to supplying the hardware and software items needed to set up an Econet system, a number of these outlets can provide other support services such as on-site training or maintenance contracts. This list indicates the dealers which have been recognised by Acorn as being able to provide a significant level of support services.

F = Field maintenance I = Installation M = Maintenance contracts
S = Software services ST = Site training TC = Training centre
