SOFTWARE PRICE LIST
JULY 1986

**GENERAL
INFORMATION**

- Prices are correct at the time of going to press. Acorn reserve the right to update without prior notice.
- All prices include carriage.
- Delivery of all products is subject to availability.
- No returns will be accepted without prior authorisation from Acorn.

Here are some brief details of the software supplied by Acorn and, where applicable, an outline of the package's enhanced features.

Lotus

123 Release 2 – Enhanced version of the first integrated spreadsheet, graphics and database package. Still one of the most powerful and popular packages available. Memory required: 256K

Symphony – All-in-one Business Productivity System offering WP, database, business graphics, spreadsheet, windowing and communications. Symphony can be tailored to any business environment and can grow with it.

Memory required: 384K (recommended 512K)

Symphony Text Outliner – Idea-organising tool designed for use with Symphony's word processor. Enables remarkable control over the reorganisation of ideas and structuring of information for more effective communication.

Memory required: 384K

123 Report Writer – Facilitates the creation of custom reports and forms using data from 123 database files.

Memory required: 256K

Symphony Spell Checker – For use with Symphony. Includes an 80,000 word English dictionary, suggests proper spellings, automatically corrects repeated words, capitalises sentences and more.

Memory required: 512K

Ashton Tate

Framework II – Integrated package incorporating database, spreadsheet, graphs, WP outline facility, communication facility, keyboard macros, in-built programming language.

DBase III plus – One of the most powerful database packages – includes new 'Assist' menu and application generator.

Micropro

Wordstar – Still one of the best-selling word-processing programs. Makes use of the extra function keys of the Acorn keyboard.

Wordstar Professional – As above plus Mailmerge, Starindex, Correctstar and WSTutor.

Wordstar 2000/2 – Word processing package specifically designed to use the full power of the 16-bit micro – runs significantly faster on the Acorn PC than other micros. Now offers newspaper-style columns, on-screen justification, 87,000 word British dictionary and much more.

Wordstar 2000 Plus – As above plus electronic mail, telexing, PC to PC link, selective mailing and indexing/table of contents.

Microsoft

Word 2 – Simple but powerful word processing package with special implementation which makes use of the high resolution of the Acorn screen.

Multiplan 2 – Still one of the most popular spreadsheets – easy to learn – powerful to use. Many enhancements over Multiplan.

Project 2 – Project planning package. Sets up 'critical path' and aids costings.

Chart 2 – Flexible means of presenting data in graphic form.

Flight Simulator – Very popular pilot game for skilful operators!!

Psion

Xchange – Complete suite of application software for word processing, financial planning, database management and business graphics – each a powerful module with high level of integration.

Chess – High-quality 3-D graphics chess game that won the microcomputer chess championships in 1984 and 1985.

Grafox

Logistix – Powerful and easy-to-use planning and decision aid, adds the all-important feature of time management to the classic spreadsheet.

Olivetti

Olitext – Simple-to-use but powerful word processing package based on the Olivetti ETV 300-word processor software.

Olitext Plus – Still based on Olivetti ETV WP software with many more sophisticated features, such as mailmerge, spell check, column mode, calculation and graphic facilities. Available end of 1986.

London Software Studio

Epps – Presentation graphics package implemented for the Enhanced Graphics Card for 16-colour, high-resolution graphics.

Digital Research

Gem Desktop – A powerful, but easy-to-use, user interface which presents your system resources and files in graphical form using icons. Available on its own or with Gem Write, Paint and Draw.

Memory required: 256K

Acorn also supplies a wide range of languages and utilities.

M19 SOFTWARE

PRODUCT	RRP Excluding Vat
