

Clan Upgrade Gift Offer

September 1995

There has never been a better time to upgrade to the latest technology from Acorn, whether the ultimate in performance, upgradeability and flexibility of the Risc PC, or the top of the range RISC OS A7000. To help with the purchase, a number of dealers are offering the Acorn 20:20 finance scheme. However, we recognise that not all Clan members are eligible for this scheme, or wish to take advantage of it, and so we are offering a choice of gifts for each Clan member who upgrades to one of the latest machines this year without the benefit of the finance offer.

Upgrade your current computer to a Risc PC or A7000 during 1995 and Acorn will give you some money - that's right, choose from the best machines that we have ever made, and we will give you a cheque back for up to £150. But that is not all. If you would prefer to upgrade to one of the new Risc PCs, you can choose the programmer's option of C/C++, a full set of PRMs including volume 5 and the style guide. This gift is worth a staggering £389.64 at retail prices, and could be yours FREE with any Risc PC.

Simply return this form with a copy of the invoice to Acorn within 30 days of the invoice date and before 31 December 1995, and receive a cheque or the programmer's bundle.
