

# Acorn Product Directories

We need to keep the product directory database up-to-date all the time. We would be grateful if you would read your entries carefully and send us clearly marked-up, photocopied pages if corrections or changes are required.

Please let us know if you no longer supply any of the products listed under your name.

Products are shown as available "Now" if suitable proofs of availability have been provided (see below). Otherwise, they are shown as "Contact supplier". Acorn Computers Ltd. reserves the right to exclude any product, for instance if supply is in question.

## Proof of availability

Software - please supply one reference copy of the complete, full-release pack to the address below.

Hardware and peripherals - please supply, to the address below, details of two reference sites where the products are installed. Neither site should be Acorn itself.

Company name: .....

The entries in the Acorn product directory entitled *Acorn Education Directory, Issue 6* for products supplied by the above:

are correct                       require amendment as detailed on the attached photocopies

Please delete the following products which are no longer supplied: .....

.....

Please add products as detailed on the attached forms

The address, telephone number and fax number in the directory:

are correct                       require amendment as detailed below

Name (BLOCK CAPITALS): ..... Signature: .....

Date: .....

Please complete the above details and send to the following address:

*Developer Support  
Acorn Computers Ltd  
Acorn House  
Vision Park  
Histon  
Cambridge  
CB4 4AE*

## Product Directory Information

Company name:

Address:

Tel:

Fax:

Post code:

*Please enter the Company name on EVERY form. You need only provide the address, telephone and fax numbers once.*

Product:

Release date - month

year

Version number (software) or Model number (hardware):

- The software is RISC OS compliant       The software is RISC OS compatible       The software is RISC OS co-existent   
The product is RISC OS 3 Enhanced       The product requires RISC OS 3       The product is fully compatible with Risc PC   
The product has minor incompatibility with Risc PC       Contact the supplier for details to achieve Risc PC compatibility   
The hardware is designed to meet Acorn specification       The software requires the BBC Model B emulator  / the PC Emulator   
This product is for use with the Acorn Pocket Book       *Tick as appropriate. See notes for details.*

**Description:** *Please provide two separate descriptions, one very brief (maximum 15 words) in this box and one fuller description (maximum 100 words) in Edit format on an E format disc. In the case of hardware, please state, in the 100-word description, which port is used for connection to the computer and if an additional hardware interface and/or interface software is required. Note in the full description also if hardware can be user fitted or must be dealer fitted.*

**Categories:** *A list of categories is given overleaf. Please give here the single specific (rather than general) category which would best describe your product and highlight overleaf additional categories into which it falls.*

Your product code:

Please indicate minimum DRAM required: 1MB/2MB/4MB/8MB

On Risc PC, does your product require VRAM to be fitted?

Prices:

RRP exc VAT:

Education price exc VAT:

Site licence, if applicable (price, number of machines):

Can your products be used on a network?

Source code language of software:

Age range (if applicable):                      years

Notes:

**Inclusion in Acorn's Product Directory database -** Third party software and hardware products are entered into the database as and when details are received from the Developer/Supplier. Details should be tendered on Product Directory Information forms (one for each product) to the address below. Products will then be detailed in Acorn Product Directories as appropriate.

Products are shown as available "Now" if suitable proofs of availability have been provided (see below). Otherwise, they are shown as "Contact supplier". Acorn Computers Ltd. reserves the right to exclude any product, for instance if supply is in question.

**Proof of availability**

Software - please supply one library copy of the complete, full-release pack to the address below.

Hardware and peripherals - please supply, to the address below, details of two reference sites where the products are installed.

**Terminology and RISC OS**

Some definitions of terms used are set out below:

**RISC OS Compliant** - those applications which run in the desktop and closely follow the RISC OS guidelines, having a consistent 'look and feel'

**RISC OS Compatible** - those applications which can be loaded from the desktop and have a quit option which returns to the desktop with no change to the user's machine configuration.

**RISC OS Co-existent** - those applications which will run in a machine with RISC OS but which fit neither of the above categories.

**RISC OS 3 Enhanced** - those applications which are compliant and run under RISC OS 2 and have enhanced features if run under RISC OS 3.
