# Software and Peripherals for the British Broadcasting Corporation Master Compact

This is a list of software and peripherals which can be used with the British Broadcasting Corporation Master Compact computer. Acorn has been working closely with the developers of these products to ensure a breadth of applications for the computer. This list is neither final nor complete but is intended as a useful starting place. If you would like to receive up-to-date information about products for your Master Compact computer, please fill in and return the postcard supplied with this catalogue.

The products listed may be obtained from your local dealer, retailer or from the suppliers themselves. A range of products is available from Greyhound Marketing and Vector Services. New product reviews and articles about the Master range may be found in the following magazines: **A&B Computing**, **Acorn User**, **Beebug** and **The Micro User**.

Although every effort has been made to ensure the accuracy of this catalogue and all information is given in good faith, Acorn Computers Ltd can accept no liability for any errors or for non-availability of products listed in this catalogue. Every publisher and supplier of products listed reserves the right to modify products and prices.

Please note that products can be purchased directly from your local dealer or retailer or purchased by mail-order from the distributors and suppliers listed. Products cannot be ordered directly from Acorn; Acornsoft titles can be ordered from Vector Services and Greyhound Marketing.

Greyhound Marketing Ltd  
Northwood House  
North St  
Leeds  
LS7 2AA  
Tel: 0532 458800

Vector Services Ltd
