September 1997

Dear Acorn Centre of Technology,

Welcome to the September UK Centre of Technology Newsletter. Included within this newsletter are:

NEW! !Details of the new A7000 upgrade facility to upgrade old style A7000 computers into the upgraded specification of the new A7000+.
NEW! A document relating to fitting SIMMS, HDD's and CD ROMs to Acorn Risc PC's
NEW! Extended Warranty procedure has been revised and simplified! (and more margin for you)
•   An up-to-date telephone list.
•   An up-to-date Material request form
•   An up-to-date price list.

A7000 upgrade to A7000+

The Acorn products keep going from strength to strength. With the addition of the A7000+ to the Acorn computer range, offering a vast increase in performance over the existing A7000, all for the same price, we are now able to offer the opportunity to upgrade existing A7000's to A7000+ specification and performance.

Existing customers who wish to upgrade there existing A7000 to A7000+ specification and performance can now do so, for the amazing price of only £249.00 + VAT. The process involves completing the enclosed A7000 to A7000+ Upgrade Application Form and faxing the completed form to the Sales Department on 01223 725435. Your account will be debited £249 ex VAT less the dealer margin and the customers machine will be collected and upgraded. Upon completion (within 10 days) the machine will be returned direct to the customer.

All you have to do is collect the customers details and payment, complete and send the A7000 to A7000+ Upgrade Application Form to Acorn and that's it, we will do the rest!

NOTE: New minimum order

Please note there is now a new minimum order value of £30. Any orders below this will carry a £5 carriage fee.

Speed boost for StrongARM

Initially for launch at the forthcoming Acorn World 97, Acorn have now begun shipping the latest 233MHz processors.

The new chip, which has been incorporated into all StrongARM shipments, has been introduced earlier than expected due to outstanding sales throughout the Fab Four promotion and significant export orders over the last quarter.

Superseding all previous models, the processor positions Acorn in step with the computing industry for producing machines at top specifications. With the machines already being despatched, a large focus is planned at Acorn World alongside other major activity, to generate awareness for the commitment Acorn has in progressing the specifications of its desktop products.
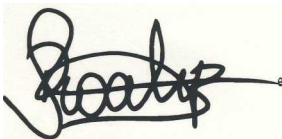

Other configuration details remain the same while order codes have been changed accordingly, please refer to your price list for further information.

Extended Warranty Procedure

The Acorn Extended Warranty system has been overhauled to make it easier for you. A new pricing structure of one price per system. Details are enclosed with this letter.

Marketing

If you have any Marketing questions, please feel free to contact our Marketing Manager, Kerri Davies who will be happy to talk with you.

Upgrading RiscPC's - a word of caution

In recent times we have been receiving a number of warranty application for StrongARM Risc PC's where the true culprit turned out to be dealer fitted Hard Drives, CD's or SIMM's.

Hard Drives:

Although the current RiscOS3.6/7 software size limit for a hard drive partition is 4.0Gb, in practice anything much greater then 2.0Gb may be expected to give problems. These can be alleviated to a degree by using the latest version of !HForm (available from our FTP site) and also setting ADFS buffers to 0 (again!).

If only larger hard drives are available then these can be formatted down (ie reducing the number of cylinders) or alternatively certain 3rd party IDE cards can be used.

If no CD is fitted then *UNPLUG CDFSSoftATAPI

CD's:

With the dubious advance in CD specification and the lack of availability of CD equipped RiscPC's, dealers have been fitting many and varied CD drives - often without sufficient testing.

Basically attaching a CD drive and reading some data is in no way sufficient. Large amounts of data need to be read and compared with the original data on the CD.

The Acorn testing regime is extremely rigorous and costs around £2000 per new device!

Windows:

Window pushes both hard drives and CD's much harder than RiscOS, so devices that appear reliable on RiscOS may not be on Windows. One might conclude from this that a good test would be to install a large piece of Windows software?

The Rest of the World:

One might be forgiven for thinking that this is an Acorn problem but this is not so. The problem relates to the degree to which the ATAPI standard has been followed and also to how hardware compatable the CD/Hard drive combination are.

SIMMs:

StrongARM equipped RiscPC's have exactly the same SIMM specification as other RiscPC's, however below specification SIMM's may work on non SA machines but not with StrongARM - this is not a StrongARM fault!

Before sourcing SIMMs check the application note 259, the bottom line of this document is printed below:

Checklist for purchasing DRAM:
- Is the SIMM 72 pin with 32 bit data?
- Is the speed 70ns or faster?
- Is the physical size correct?
  The SIMM **must** be 108mm long, 36.2mm (or 30.0mm on A7000) wide, 9.4mm thick and have clearances of 3.18mm and 5.72mm respectively for the front and back of the SIMM between the DRAM devices and the bottom of the connector.
- Is the DRAM a square array?
- Does the SIMM contain 16 or less devices?
- Do the DRAM devices support 'fast page mode' and 'CAS before RAS' refresh?

ADDITIONAL INFORMATION ON SELLING EXTENDED WARRANTY

To sell an extended warranty all you need to do is:

- at point of sale of the system or within 1 year thereafter, invoice the customer at the extended warranty list price + VAT as detailed on the Extended Warranty Price List;

- complete the application form and fax/post it to Acorn within fourteen days of point of sale of the system, accompanied by your purchase order/or purchase order number.

That's it! That's all you need to do!

On receipt of your application form, Acorn will:

- issue to your customer the extended warranty agreement.

- invoice you at the dealer price + VAT, for example:

System: NON - StrongARM Risc PC's and A7000/A7000+ machines with On Site Support

Warranty (Product Code)	3yr (AMC00)	5yr (AMC99)
Customer Price	£80.00 ex VAT	£160.00 ex VAT
Dealer Price	£64.00 ex VAT	£128.00 ex VAT
Dealer Margin	20%	20%
Dealer Profit	£16.00 ex VAT	£32.00 ex VAT

System: StrongARM based Risc PC's with return to Base Warranty and NON StrongARM based Risc PC's with On Site Warranty

Warranty (Product Code)	3yr (SRP00)	5yr (SRP01)
Customer Price	£200.00 ex VAT	£400.00 ex VAT
Dealer Price	£160.00 ex VAT	£320.00 ex VAT
Dealer Margin	20%	20%
Dealer Profit	£40.00 ex VAT	£80.00 ex VAT

Important Notes:

• This opportunity is only open to dealers at point of sale of the system or within 1 year thereafter.

• Acorn will invoice you at the dealer price (irrespective of your system sales price).

• The extended warranty agreement does not cover; non Acorn monitors, peripherals such as printers, third party CD-ROM drives etc., and software applications. Standard software applications installed/supplied by Acorn with the computer, are included in the extended warranty cover.

Full details of the extended warranty terms and conditions are available on request. If you require a copy, or need further information and assistance, fax/phone Logistics & Administration, as detailed overleaf.

DEALER APPLICATION FOR STRONGARM RISC PC
THREE YEAR EXTENDED WARRANTY

Acorn

Three Year Extended Warranty gives your customer:

- additional two years warranty cover inclusive of parts, labour and carriage (giving three years' support in total);
- additional two years hot-line support cover operating Monday to Friday, 9am to 5pm (excluding Public Holidays);
- back-to-base repair service; typically product repaired and returned within five working days of receipt;

Charges

You invoice your customer for the extended warranty at point of sale of the computer system.
The recommended charge to your customer is stated on the extended warranty price list.
The computer system may include Acorn hardware upgrades, (ie only those listed on the Acorn price list).
Acorn will invoice you at the dealer price.

How to apply on behalf of your customer

Complete all sections of this form and fax/post it to Acorn within three working days of the date of sale of the system.
