

SALES NEWS Issue 35

13th September 1991

Dear Dealer

Cluster Networks Scheme

Please be aware that the Cluster Network Scheme has expired. We will be notifying you, in the near future, of a replacement scheme.

Econet Bridge

Acorn is currently working on a new improved design, in line with customer requirements, for this product. Unfortunately, the replacement product will not be available until December 1991. You will be informed of the new product code later this year. However, orders for AEH20 will be still accepted.

Ethernet Card

Regarding the Ethernet Card, AKA25. This product has been replaced by Ethernet II, AEH50, which is an enhanced version allowing for onboard ROM. Prices remain the same as the previous version. This product is now in stock, therefore all outstanding orders have been transferred to the new product code.

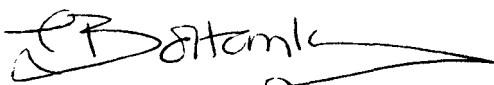

Acorn User Show

Dealers wishing to attend the Acorn User Show on 11 th, 12th and 13th October will be admitted free of charge if a business card is shown at the door.

Literature

Please find enclosed example copies of new literature; Acorn Desktop C and Desktop Assembler, APP385 and PC Emulator v1.60, APP383. For further supplies, please contact your distributor.

Yours faithfully

Tracy Bottomley
Senior Sales Co-ordinator
Sales Operations Department
