

SALES NEWS Issue 92

20th January 1994

Dear Dealer

A-Link Upgrade

A new version of the above product has been developed with enhancements and improvements over the original, as follows:

- * DOS file mapping, so that all files on the Pocket Book can be backed up on Archimedes computer and transferred back to the Pocket Book without the need to adjust any filenames;
- * more than one file can be highlighted in the conversion window, which allows multiple file copies and other operations;
- * files in the conversion window can be renamed, deleted and copied;
- * plus other improvements to make the A-Link quicker and even easier to use.

This new product has already been cut into our production line and there has been no change to the product code or pricing.

Existing owners can obtain this new version on a floppy disc for £9.95 inc VAT and P&P by sending a cheque or postal order, payable to Acorn Direct, together with the original A-Link disc and customer details to Acorn Direct, 13 Denington Road, Wellingborough, Northants NN8 2BR. This offer expires 30th April 1994.
