

# SALES NEWS Issue 98

29th March 1994

Dear Dealer

## Product Announcement

Acorn is pleased to announce that all A5000 and A4000 models are increased in hard disc capacity with immediate effect, as follows.

A4000 2/80 Mbyte system	replaced by 105 Mbyte system
A5000 80 Mbyte system	replaced by 210 Mbyte system
A5000 4/160 Mbyte system	replaced by 4/210 Mbyte system

All new models are available with immediate effect and recommended retail prices remain the same as old models. Outstanding orders have been transferred to the new product codes, detailed below.

Code	Description
AGC40	A4000 2M 105HD
ALB53	A5000 2M 210HD
ALB55	A5000 4M 210HD

All performance data and options are as before.

These changes reflect Acorn's policy of constant product development, offering users increased value for money.

## CD ROM Scheme - participating dealers only

Please be aware that the above scheme has been extended until stocks last.

Yours faithfully

  
Tracy Bottomley  
Sales Desk Supervisor
