

HARD DISC UPGRADE AKD52

FOR THE ARCHIMEDES 300 SERIES

This kit should contain the following items:

- 3 1/2" hard disc drive and bracket assembly
- two, M3 x 6mm screws
- 34 way ribbon cable assembly
- 20 way ribbon cable assembly
- LED assembly
- single blanking panel
- two, M2.5 x 6mm screws
- `T' piece
- hard disc podule assembly
- instructions for use leaflet
- front label, 305H
- front label, 310H
- guarantee card

If any of these items is missing or damaged then contact your supplier immediately.

This hard disc upgrade is intended to be fitted by an Acorn Computers' authorised dealer who will install, format and test the hard disc unit. This kit and your Archimedes 305 or 310 (both in their original packaging) should be taken to an Acorn Computers' authorised dealer for hard disc upgrade installation.

The hard disc upgrade installer should give the `Archimedes Hard Disc Upgrade' instructions for use leaflet to the user when returning the upgraded Archimedes.
