- Yes No

If 'Yes' please state how many

10. What subjects will be taught with the aid of Concept Keyboards?

It is most important that we, the manufacturers & designers maintain close contact with you, the teachers and advisors. In doing so we are better able to produce the products you need and help to solve the problems you face.

By returning this form completed, you will be added to a mailing list of Concept Keyboard users. This list is **NOT** used to distribute junk mail!

It is used to distribute information and ideas for classroom projects, new applications, solutions to particular problems, in fact any use of the keyboard which could be of value to teachers and their students.

It could be that your specific question has already been answered (perhaps in Australia, for instance!) The Concept Keyboard User Group network can be of real value to you. By the same process, we hope that as you develop your own ideas, you will share your experiences (and problems!) You can contact us anytime, either through your dealer or direct.

To help us help you, spare a few moments to complete this questionnaire. On completion, please mail it to your dealer or direct to the Concept Keyboard Co. Ltd. at the address above.

If you live in the UK you can mail it free of charge (no stamp required) by using the following address:
