

ArVis Price List APRIL 1990

PRODUCTS FOR THE ARCHIMEDES A3000 COMPUTER

Most items are built into a standard Archimedes expansion box which plugs into the expansion slot at the rear of the A3000 computer.

A3000/GL8	Genlocks the Archimedes to composite video input. No video decoding or mixing facilities	£ 159.00
A3000/VC2/PAL	Videocontroller, genlock, PAL decoder, RGB mixing	£ 298.00
A3000/VC2/SVHS	Videocontroller, genlock, SVHS/PAL decoder and RGB image mixing - also accepts RGB inputs	£ 318.00
ARPE8/PAL	RGB to PAL encoder - plugs onto A3000/VC2/PAL card	£ 129.00
ARPE9/SVHS	RGB encoder with composite PAL & SVHS (Y/C) outputs Plugs directly onto A3000/VC2/SVHS expansion card.	£ 145.00
ArVis/3000	A3000 version of the full ArVis videographics system with a 32000 colour digitiser, 16 bit 640x256 pixel framestore, colour genlock, overlay mixing and display output. Complete with OSCAR editing software	£ 897.00
A3000/DG16	32,000 colour digitiser and 16 bit 640x256 pixel framestore for capturing live video images from PAL or RGB inputs. Creates sprites for DTP and applications not requiring video genlock and overlay facilities.	£ 579.00
A3000/GFX16	16 bit digitiser, 640x256 pixel memory similar to the A3000/DG16 but with 32000 Dolour RGB output and overlay switching of the Archimedes graphics & framestore image. Images can be painted directly into the framestore.	£ 690.00
A3000/IMAGE-16	16 bit 640x256 pixel framestore with local display output to extend the Archimedes to 32000 colours. Image switching combines the Archimedes and framestore image into a single RGB output.	£ 593.00
A3000/IMAGE/24	Full 24 bit RGB framestore for very high resolution applications (768x288 pixels - 16 million colours)	£ P.O.A
RGB ENCODER	High quality external RGBS to PAL/SVPS encoder	£ 218.00
COLOUR PRINTER	Please ask for details of high resolution Dolour printers	
IMAGING CAMERA	Professional very high resolution colour camera	£ P.O.A
DEMO DISC	Contains several digitised and edited ArVis images	£ 4.00

Please ask for details of vision mixers, special effects generators and other video equipment with direct Archimedes interfaces. We specialise in the design and manufacture of digital and video equipment - please contact us if you have a requirement for larger framestores, or other non standard items.

COLOUR PRINTING - we can supply high definition colour prints from your graphics discs using the latest 256,000 colour inkjet printers. Ask for an order form and price list.

Prices are exclusive of V.A.T. & subject to revision without prior notice.
