

User Port / MIDI expansion card

(For use with Acorn A3000 computers)

Packing list

The kit should contain the following items:

- Packing list/Guarantee (this document)
- User Port / MIDI expansion card (sealed in an anti-static bag)
- User Guide

If any of these items is missing or damaged, contact your supplier immediately.

Installation

The User Port / MIDI expansion card is intended to be fitted by an Acorn Authorised Dealer, who will install and test the card. A charge may be levied by the dealer for installing the card; such a charge shall be entirely at the discretion of the dealer concerned. This card and your Acorn A3000 computer (both in their original packaging) should be taken to an Acorn Authorised Dealer for installation.

Guarantee

The guarantee on this expansion card is identical to that on your Acorn A3000 computer, with the exception that the guarantee period starts from the date of installation of the expansion card, and covers the card only. You should ensure that the dealer completes the installation details in the box below, and that the date shown is correct.
