RISC OS compatible products for the new Millennium

With the simple drag and drop, logical functionality found in RISC OS 4, anybody can start using a RiscStation computer from the box!

*Corruption of the operating system is practically impossible so the down time of our computers incorporating RISC OS is virtually zero, and best of all, you will not be bugged by today's disasterous viruses!*

RiscStation systems with RISC OS are generally more user friendly. Drag and Drop, simple configuration and a logical way of working means that anyone can use a RiscStation machine straight away. Our systems make ideal solutions at home, in the office, in educational environments and wherever else a simple, reliable, yet powerful computer is needed.

*No matter what the application, our quality products will impress.*

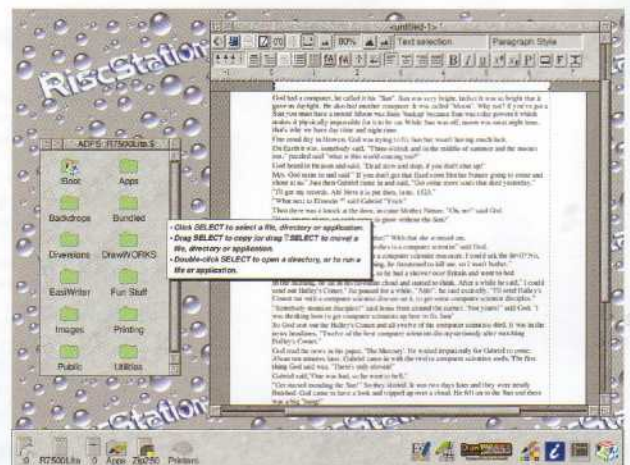

We are aiming to take our new Acorn compatible RISC OS based systems into the mainstream markets as well as giving the existing market the hardware advancements it deserves.

*RISC OS systems have been around for a long time now, but none have been as 'cutting edge' as those designed and manufactured by RiscStation Ltd.*

Welcome to the new world of RiscStation.

We are a company dedicated to developing new technology for RISC OS, the computer operating system that we and many other existing users across the world believe to be the most user friendly, accessible and stable in the computing world today.

For those who are unfamiliar with RISC OS, it is an operating system that unlike other computers', resides in reprogrammable microchips. Other operating systems consume large amounts of hard drive space and system memory to run, where as RISC OS, running from microchip, need not take large portions of these resources.

RISC OS 4 is mainly hardware orientated, meaning that the bulk of the software is programmed into microchips inside the computer. This alone makes RISC OS 4 great, in that corruption of the operating system practically never happens so the down time of a RiscStation computer is virtually zero.

*The future starts here . . .*

The premier RiscStation computer sets a high standard for 'next generation' RISC OS systems and is acknowledged as the fastest ARM7500 based computer yet.

56 Mhz ARM7500FPE (with integrated floating point co-processor)

RISC OS 4.03

16Mb 60ns EDO System Memory

48X Atapi EIDE CD ROM Drive

4.3Gb EIDE Hard Drive

4/6Mb ROM/Flash Memory containing RISCOS 4 and Utilities

Micro ATX Desktop or Mini/Midi Tower Configuration

Minimum 60 Watts External Stereo Speakers

2 x Serial Port \*Rated at 460k baud

2 x PC Style Game Port supporting Midi In/Out/Through

2 x High Speed EIDE Ports \*Supporting up to 4 devices

1 x 10baseT Network Port with Wake On Lan Support

1 x EPP/ECP Fast Parallel Port

1 x IRDA Infrared Interface Support

1 x High Density Floppy Drive Port

1 x 15Pin VGA Connector

Full 16Bit OPL3 Stereo Sound Sampler & Mixer with FM Synthesizer support, 2 CD Mixer Ports 3 x 3.5mm Jack Sockets for Line in/Mic In/Headphone & Speaker Out

PS2 Style Keyboard Input

PS2 Style 3 Button Mouse Input

Easi Writer Pro, DrawWORKS Millennium, Fireworkz Pro, Ankh, Botkiller II and much more free software.

From **£499** + VAT

56 Mhz ARM7500FPE (with integrated floating point co-processor)

RISC OS 4.03

64Mb 60ns EDO System Memory

48X Atapi EIDE CD ROM Drive

10Gb EIDE Hard Drive

4/6Mb ROM/Flash Memory containing RISCOS 4 and Utilities

Micro ATX Desktop or Mini/Midi Tower Configuration

Minimum 60 Watts External Stereo Speakers

2 x Serial Port \*Rated at 460k baud

2 x PC Style Game Port supporting Midi In/Out/Through

2 x High Speed EIDE Ports \*Supporting up to 4 devices

1 x 10baseT Network Port with Wake On Lan Support

1 x EPP/ECP Fast Parallel Port

1 x IRDA Infrared Interface Support

1 x High Density Floppy Drive Port

1 x 15Pin VGA Connector

Full 16Bit OPL3 Stereo Sound Sampler & Mixer with FM Synthesizer support, 2 CD Mixer Ports 3 x 3.5mm Jack Sockets for Line in/Mic In/Headphone & Speaker Out

PS2 Style Keyboard Input

PS2 Style 3 Button Mouse Input

Easi Writer Pro, DrawWORKS Millennium, Fireworkz Pro, Ankh, Botkiller II and much more free software.

The increasingly popular R7500 Lite package with an increased hard drive capacity of 10Gb and shipped with a giant 64Mb of RAM! The R7500 Lite+ delivers even higher specification at a low price.

From **£579** + VAT

The NetWORX computer from RiscStation takes the pain out of networking and provides a stable, reliable, and cost effective workstation solution.

56 Mhz ARM7500FPE (with integrated floating point co-processor)

RISC OS 4.03

8Mb 60ns EDO System Memory

4/6Mb ROM/Flash Memory containing RISCOS 4 and Utilities

Micro ATX Desktop or Mini/Midi Tower Configuration

2 x Serial Port \*Rated at 460k baud

2 x PC Style Game Port supporting Midi In/Out/Through

2 x High Speed EIDE Ports \*Supporting up to 4 devices

1 x 10baseT Network Port with Wake On Lan Support

1 x EPP/ECP Fast Parallel Port

1 x IRDA Infrared Interface Support

1 x High Density Floppy Drive Port

1 x 15Pin VGA Connector

Full 16Bit OPL3 Stereo Sound Sampler & Mixer with FM Synthesizer support, 2 CD Mixer Ports 3 x 3.5mm Jack Sockets for Line in/Mic In/Headphone & Speaker Out

PS2 Style Keyboard Input

PS2 Style 3 Button Mouse Input

Network software pack.

From **£399** + VAT

56 Mhz ARM7500FPE (with integrated floating point co-processor)

RISC OS 4.03

8Mb 60ns EDO System Memory

Minimum 2.1Gb EIDE Hard Drive

4/6Mb ROM/Flash Memory containing RISCOS 4 and Utilities

Micro ATX Desktop or Mini/Midi Tower Configuration

2 x Serial Port \*Rated at 460k baud

2 x PC Style Game Port supporting Midi In/Out/Through

2 x High Speed EIDE Ports \*Supporting up to 4 devices

1 x 10baseT Network Port with Wake On Lan Support

1 x EPP/ECP Fast Parallel Port

1 x IRDA Infrared Interface Support

1 x High Density Floppy Drive Port

1 x 15Pin VGA Connector

Full 16Bit OPL3 Stereo Sound Sampler & Mixer with FM Synthesizer support, 2 CD Mixer Ports 3 x 3.5mm Jack Sockets for Line in/Mic In/Headphone & Speaker Out

PS2 Style Keyboard Input

PS2 Style 3 Button Mouse Input

Network software pack.

From **£449** + VAT

Well received in schools and businesses across the country, the NetWORX computer is now available as a stand alone bootable workstation in this new 'HD' edition arriving with a minimum of 2Gb storage space.

The R7500 Scorcher from RiscStation arrives with a quality CD ROM Reader/ReWriter and media. Using the acclaimed CDBurn suite the Scorcher provides a brilliant CD mastering platform for home users.

56 Mhz ARM7500FPE (with integrated floating point co-processor)

RISC OS 4.03

64Mb 60ns EDO System Memory

4x4x24 minimum speed CD ReWriter

10Gb EIDE Hard Drive

4/6Mb ROM/Flash Memory containing RISCOS 4 and Utilities

Micro ATX Desktop or Mini/Midi Tower Configuration

Minimum 60 Watts External Stereo Speakers

2 x Serial Port \*Rated at 460k baud

2 x PC Style Game Port supporting Midi In/Out/Through

2 x High Speed EIDE Ports \*Supporting up to 4 devices

1 x 10baseT Network Port with Wake On Lan Support

1 x EPP/ECP Fast Parallel Port

1 x IRDA Infrared Interface Support

1 x High Density Floppy Drive Port

1 x 15Pin VGA Connector

Full 16Bit OPL3 Stereo Sound Sampler & Mixer with FM Synthesizer support, 2 CD Mixer Ports 3 x 3.5mm Jack Sockets for Line in/Mic In/Headphone & Speaker Out

PS2 Style Keyboard Input

PS2 Style 3 Button Mouse Input

CD Burn, Easi Writer Pro, DrawWORKS Millennium, Fireworkz Pro, Ankh, Botkiller II and much more free software.

From **£769** + VAT

56 Mhz ARM7500FPE (with integrated floating point co-processor)

RISC OS 4.03

64Mb 60ns EDO System Memory

4x4x24 minimum speed CD ReWriter

48X Atapi EIDE CD ROM Drive

10Gb EIDE Hard Drive
